SUMMARY

Python developer and self-taught builder. I design how a system fits together, then use AI-assisted development (vibe coding) to build and ship web, mobile, and CLI products. I work by directing AI across new stacks, then reviewing, testing, and deploying the result.

TECHNICAL SKILLS

- **Languages:** Python, HTML, CSS
- **AI-Assisted Development (Vibe Coding):** Directing AI to design, build, and ship full-stack products across React, Next.js, TanStack Start, Flutter, TypeScript, Node.js, and Tailwind CSS
- **AI & LLM:** AI Agents, Prompt Engineering, LLM Integration, Groq API, OpenAI API
- **Tools & Platforms:** Git, GitHub, GitHub Actions, Vercel, Cloudflare Workers, Render, Hugging Face Spaces, PyPI
- **Core Strengths:** System Design, Problem Solving, Deployment

EXPERIENCE

Independent Developer Jan 2024 – Present

- Design and ship web, mobile, and CLI products end to end — system design, AI-assisted development, and deployment.
- Build AI features hands-on: model and API selection, backend, UI, and deployment.
- Published llmScribe on PyPI; maintain open-source projects with Git and GitHub Actions.

PROJECTS

- **Scoop** — AI assistant for school communications and family logistics. Silver Award (2nd place), CSC Back-to-School Hackathon; selected for Hackyard Build 2026 at IIT Guwahati from thousands of applicants. *TanStack Start, Groq API, AI Agents, Vercel.*
- **llmScribe** — Open-source Python tool that exports an entire codebase into one LLM-ready file. CLI, GUI, and interactive terminal interfaces; published on PyPI. *Python, Tkinter, PyPI.*
- **LuminaBG** — AI background remover with a model marketplace (U2-Net, ISNet, BiRefNet), remove.bg API integration, and alpha-matting for fine hair and fur edges. *React, FastAPI, rembg, Hugging Face Spaces.*
- **Vidgrab 2.0** — AI video search and downloader web application. *React, Tailwind CSS, Vite, Node.js, yt-dlp.*
- **walliq** — Wallpaper app (web and Flutter) on a GitHub-powered CDN, with light/dark theming, favorites, and category filtering. *Flutter, JavaScript, Cloudflare Workers.*
- **NewsReels** — Vertical-scroll news app aggregating live RSS feeds across categories. *React, TypeScript.*

ACHIEVEMENTS

- **CSC Back-to-School Hackathon** — Silver Award, 2nd place (Oct 2026), for Scoop. Awarded by Webb Computer Science for Change.
- **Hackyard Build 2026** — Selected Builder (solo); in-person round at IIT Guwahati, chosen from thousands of applicants (Oct 2026).
- **Replit 10th Birthday** — Ranked in the top 8% of builders; shipped 2 apps in one day across 64 AI agent interactions (May 2026).

CERTIFICATIONS

- **Google:** Introduction to Image Generation; Introduction to Large Language Models
- **HP LIFE:** AI for Business Professionals; Critical Thinking in the AI Era; Data Science & Analytics
- **OpenAI Academy:** AI Foundations; Applied AI Foundations
