SUMMARY

Tech enthusiast who builds software that makes everyday life easier, the kind that quietly removes a chore instead of adding another app to manage. Python is my main language: I design how a system fits together, then build, test and ship it, leaning on AI for other stacks. Looking for a role where I can keep shipping real products.

TECHNICAL SKILLS

Language: Python

Core strengths: System design · Scalability · Product thinking · Problem solving

Working with AI: Direct AI to build and review code across other stacks, and pick the right tool for the job

Tools: Git & GitHub · GitHub Actions · Vercel · Cloudflare · PyPI

EXPERIENCE

Independent Developer · **Jan 2024 - Present**

- Design and ship web, mobile and CLI products end to end: system design, build, test and deploy.
- Build AI features hands-on: model and API selection, backend, UI and deployment.
- Published llmScribe on PyPI; maintain open-source projects with Git and GitHub Actions.

PROJECTS

- **Scoop** — AI assistant that turns school emails, WhatsApp threads and newsletters into one plan. Silver Award, CSC Back-to-School Hackathon. (TanStack Start, Groq)
- **llmScribe** — Open-source Python MCP server that gives coding agents structured, deterministic access to a local codebase; CLI and GUI from one core. On PyPI, on the official MCP Registry, with 42 stars on GitHub. (Python, MCP)
- **LuminaBG** — AI background remover with seven engines, including a zero-upload browser mode that never sends the image anywhere. (React, Hugging Face)
- **Vidgrab 2.0** — Video search and downloader for YouTube and Facebook, with previews, library and history. (React, Node.js)
- **Wallpaper CDN** — A wallpaper API where GitHub is the backend; a workflow publishes images.json to jsDelivr for Flutter, React Native and web clients. (GitHub Actions, jsDelivr)
- **Munin** — News reader that pulls live headlines from about 110 Indian newsrooms into one feed, with three reading modes. (React, RSS)

ACHIEVEMENTS

- **CSC Back-to-School Hackathon** — Silver Award, 2nd place (Oct 2026), for Scoop.
- **Hackyard Build 2026** — Selected Builder (solo); in-person round at IIT Guwahati, chosen from thousands of applicants.
- **Beginner's Paradise 2026** — Most Polished Project, presented by FirstCommit.
- **Replit 10th Birthday** — Top 8% of builders; shipped 2 apps in one day (May 2026).
