AMRITO KUNDU

Full-Stack & AI Developer — Python
West Bengal, India | +91 8348435630 | amritokundu719@gmail.com
github.com/AMRITO-KUNDU | amritokundu-portfolio.vercel.app

SUMMARY

Self-taught full-stack developer who ships production web, mobile, and CLI software end to end. Python-first, working across React, TypeScript, and Flutter. Builds and deploys AI-powered apps, developer tools, and serverless services.

SKILLS

Languages: Python, TypeScript, JavaScript, Dart, SQL, HTML, CSS

Frontend & Mobile: React, TanStack Start, Next.js, Flutter, Tailwind CSS

Backend & AI: Node.js, FastAPI, REST APIs, Groq API, AI Agents, Supabase, MySQL

Cloud & DevOps: Vercel, Cloudflare Workers, Render, Hugging Face Spaces, Docker, Git

EXPERIENCE

Independent Developer — Full-Stack & AI | Jan 2024 – Present

- Shipped and deployed 10+ web, mobile, and CLI products on serverless and edge infrastructure.
- Deliver AI features end to end: model and API selection, backend, UI, and deployment.
- Published llmScribe on PyPI; maintain multiple open-source repositories.

PROJECTS

Scoop — AI assistant for school communications and family logistics. Silver Award (2nd place), CSC Hackathon; selected for Hackyard Build 2026, IIT Guwahati. TanStack Start, Groq API, AI agents.

llmScribe — Open-source Python tool that exports a codebase into one LLM-ready file. CLI and GUI; published on PyPI.

LuminaBG — AI background remover with a model marketplace (U2-Net, ISNet, BiRefNet) and alpha-matting. React, FastAPI, rembg.

Vidgrab 2.0 — AI video search and downloader web app. React, Node.js, yt-dlp.

walliq — Wallpaper app (web and Flutter) on a GitHub-powered CDN, with theming and favorites.

NewsReels — Vertical-scroll news app aggregating live RSS feeds. React, TypeScript.

ACHIEVEMENTS

- CSC Back-to-School Hackathon — Silver Award, 2nd place (Oct 2026), for Scoop.
- Hackyard Build 2026 — Selected Builder; in-person round at IIT Guwahati (Oct 2026).
- Replit 10th Birthday — Top 8% of builders; shipped 2 apps in a day (May 2026).
